✓ "HOW CANADA AND THE FARMER COOPERATE IN GRAIN RAISING". ✓

Scenic - - Screen time 15 minutes.

This is a scenic film of more than usual interest at this time. It shows the splendid results of the Canadian government's co-operation with her farmers toward the end of making them more prosperous and of increasing the efficiency of the soil. Science and system are revealed in this picture, in the scenes of Alberta grain growing and in the huge mills and elevators of Winnipeg and Montreal. You will see how the grain is shipped and handled in the elevators; how it is inspected, and will be given an insight into the flour mills of the dominion.
